

VarioGate Tailgate Guard

This is only a couple of years old BUT it is missing a few 'bolts' and thus it rattles somewhat! We are not trying to hide anything!

Reasonable condition. The upright bars are adjustable and it is from these that a few bolts are missing - we have a couple but they are quite difficult to get to! All vertical bars are adjustable in order to fit the contours of your vehicle hatch and the 'wings' at the side are adjustable. Both doors open and are lock (yes, we have the keys!). There are two detachable balance legs that help to stabilise the whole thing and adjust to the length of your vehicle's cargo bay. The 'grey' divider in picture does NOT come with it.

This rear door guard is very heavy! This item is NOT vehicle specific. Product Code : 53253
Dimensions: Width: 900 – 1280 mm Height: 555 – 960 mm Depth: 600 – 1500 mm
